20. august 2021

Practical information:

- This is a hands-on workshop, and it is expected that all participants are active during the workshop.
- It is recommended to use a computer to run the test scripts provided by MedCom and the computer is expected to be JAVA compliant.
- The goal for the day is that all participants have completed at least one Touchstone Test Script.
- MedCom is available for support and QA in the chat and via video during the workshop.

Touchstone license:

To join the Touchstone workshop, it is required to register your organization to Touchstone at least one day before the workshop to get a free "Starter" subscription (<https://touchstone.aegis.net/touchstone/subscription>) from MedCom. The "Starter" subscription will increase the numbers of possible test execution.

If your organization is already registered and wants a "Starter" subscription- go to step 2.

How to register

- Go to <https://touchstone.aegis.net/touchstone/register> and follow the steps. (Create a "Free" account)
- Follow this guide <https://touchstone.aegis.net/touchstone/userguide/html/registration/membership.html#new-organization> to create your organization.
- Send the organization name that is registered to fhir@medcom.dk
- MedCom will ask AEGIS to raise your subscription level from "Free" to "Starter"
